

# Trump Putin Netanjahu and Associates

Since January 20, 2025, the convicted criminal **Donald Trump**, president of the USA again, elected by brain amputees Republicans, together with billionaire **Elon Musk**, has been letting out the proverbial wild boar with dozens of decrees a day. In addition, there are threats, that the Panama Canal will be re-captured, Canada will be appropriated as a state, Greenland will be bought or conquered militarily. In view of the economic level of an infant, he has imposed high tariffs on Canada, Mexico and China, while the **European Union** expects the same and can only tremble with fear, **including Switzerland**. He wants to deport illegal immigrants and their U.S.-born immigrants to Guantanamo in Cuba and arrest them, contrary to all laws.

We have already written about criminal mass murderer **Vladimir Putin**, who has been waging war against Ukraine for 3 years, driving more than 1,000 soldiers to their deaths every day. Those who do not storm forward, are shot from behind by their own compatriots. Which brings us now to the **consorts**, the North Korean soldiers, whom **Kim Jong-un** generously provided in return for the help of missile technology, with the threatening instruction, to fight and die, rather than be captured, because they would be killed together with all his relatives on their return. This has led to North Korean soldiers, holding a hand grenade to their heads in hopeless situations. **Boom!**

Donald Trump wants to annex the Gaza Strip, outsource 2 million Palestinians to Arab countries and turn it into an American Riviera for tourists. The criminal **Benjamin Netanyahu** nods submissively at the press conference. He is happy with any deal, as long as it allows him, to remain president with immunity. If he loses his job, he automatically goes before the judge and then to prison. While the ultra-Orthodox Jews dream of settling the Gaza Strip and the West Bank, if necessary, by force of arms by ordinary Jews, because they themselves are exempt from military service out of boundless religious zeal, the entire Israeli government knows, that it will never allow a Palestinian state. And the Arab countries do not want to take in a single Palestinian. **Great world order!**

**The man in power is a terrible predator.** But he actually looks quite harmless. Much more harmless than, for example, a lion, which is significantly larger and faster. Nevertheless, giraffes, zebras, warhogs, antelopes, hyenas, leopards and many others are more afraid of humans than lions. **Quod erat demonstrandum!**
